

New staff join TSGE

TSGE, the European regulatory consultancy, continues to expand its business with the recruitment of four regulatory consultants. The company now employs a total of 49 staff across Europe.

Dr Alison Hamer, Dr Isla Mathieson, Andy Brice and Jonathan Burke join the UK office and will work closely with TSGE's offices in Ireland, Germany, Spain and Slovenia to provide quality scientific, regulatory and registration services across Europe.

Dr Alison Hamer has previously worked with other regulatory consultancies, for the National Centre for Renewable Energy, Fuels and Materials and at the UK competent authority (now CRD). She takes a lead role in developing and delivering project management services across the group. With an academic background in biology, Alison brings extensive expertise in biopesticide registration.

Dr Isla Mathieson joins TSGE from Intertek where she managed REACH-related and food contact projects. Isla is an applied chemistry graduate with a PhD and MSc in polymer technology and will be a significant contribution to the TSGE REACH project management, OR, SIEF management and technical services and will contribute to food contact business.

Andy Brice joins TSGE from the international contract laboratory services company Covance where he has extensive experience (25 years) in residues and environmental fate. Andy is a chemistry graduate and will work across various chemical sectors on analytical methods, environmental fate, residues and study monitoring. He will also provide support to the environmental exposure modelling team.

Jonathan Burke is an ecotoxicologist and also joins TSGE from Covance where he worked as the lead scientist of the group. Jonathan is a graduate in marine biology and coastal ecology, and holds a Masters of Research in applied fish biology. He has expertise in environmental endocrine disruption and will be responsible for preparing ecotoxicological information and risk assessments in summary dossiers across all chemical sectors.

TSGE can help you meet your regulatory challenges. Simply call us on +44 (0) 1423 799 633 or e-mail TSGE@TSGEEurope.com
